Print a label

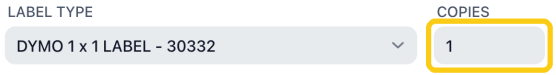

Rose Retail

Good to know: Print one label at a time with the red tag. Printing many at once comes with Rose Pro.

1 Click the red tag next to the item.

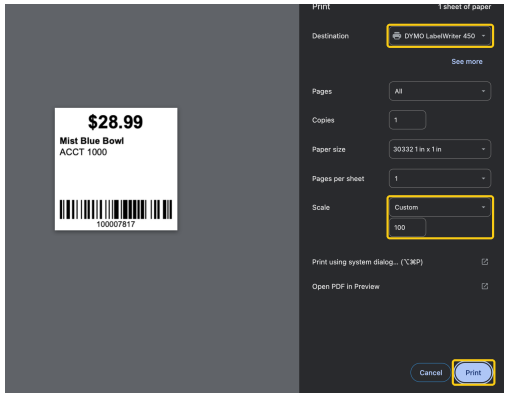

2 Type how many labels in COPIES.

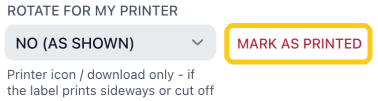

3 Click the printer icon.

4 Pick your label printer. Scale 100. Click Print.

5 Click MARK AS PRINTED.

Label looks wrong?

Tiny label on a big page?
Pick your LABEL printer, not the office printer.

Label is sideways or cut off?
In Rose, change ROTATE FOR MY PRINTER.
